

Yes. We can deliver animals to your farm. Currently we can transport 4-5 animals at a time. We will do our best to deliver within New England, as time and schedules allow. We will assist you in arranging delivery across the country. Delivery charges depend on the distance to be traveled, but we try to be reasonable. Our strong preference is for buyers to pick up sheep here at the farm. This allows for a farm tour and Q & A session. This is valuable time for beginning shepherds to see first hand how our small hill farm operates, how we set up breeding groups, fencing, feeders, etc.
