

Single, solid black ewe. Daughter of gorgeous AI sire Drifandi and one of my absolute favorite ewes. Top notch muscling and conformation with both sire and dam, along with lovely wool. High expectations for this one. Looks great as a yearling. Solid!! AI genetics are 96% from: Drifandi, Throttur, Raftur, Kveikur, Grani, Gaddur, Laekur, Flotti, and Lodi.

Sire: [AI Sire Drifandi](#)

Dam: [Gilda KTB 811D AI daughter of Throttur](#)
