

Handsome white ram out of AI sire [Dropi](#). A twin, and growing fast like his sister. He will carry color, as his mom is a black spotted. AI genetics are super with 50% Dropi, 1/16 Udi, 1/16 Grimur, plus little Flotti, Morro and Molur for a total of 69%. This striking ram seems to have inherited many of his sire's fine qualities, with a broad chest and nice muscular rack and legs. His fleece is plentiful with lots of crimp, very white with no tan fibers. Excellent parasite resistance. Plus, his horns look really excellent.

**He was matched with 3 ewes for the 2012 lambing season: Freda, Marla, and Maryann.**

Born: April 19, 2011

Sire: [06998 Dropi](#) (AI sire)

Dam: [KTB 108W Whoopi](#)
