

Twin. White ram lamb out of AI sire Guffi. He is the only Guffi offspring on the eastern half of the U.S, other than his twin sister that we are keeping. Guffi is a very impressive new AI sire with great all round scores. Super pleased to have this AI Guffi-son out of our Bifur AI ewe, Francine. He will be added to our ram line-up for this fall. AI genetics for this ram lamb are 90% with Guffi, Bifur, Grani, Heli, and Flekkur. So far, this ram lamb looks really well put together with a totally gorgeous lamb fleece!

Sire: [Guffi-AI](#)

Dam: [FFC 715X Francine](#)

DOB: April 6, 2013
