

Single. Well grown yearling. Black mouflon ram out of Katherine and AI sire Grabotni. He carries 75% AI genetics from: Grabotni, Kani and Flotti. We will be watching this one as one to keep here. Should be an excellent father of milky daughters as he is out of one of our top milking lines. Handsome! 14 day weight was 28 pounds. Excellent body length, very nice straight legs, well muscled back and loin. He carries both black and moorit for color. Patterns are solid and mouflon.
