

Twin, heterozygous white yearling ram out of Gossie and AI sire Drifandi. Very vigorous at birth. Gossie is a very well muscled ewe and Drifandi is excellent in all areas, including fleece. We have had AI lambs from this pairing before, and they were excellent. AI genetics are 85 % from Drifandi, Dropi, Udi, Grimur, Flotti, Morro and Molur. This ram lamb should be VERY nice, offering heavy muscling, excellent milking abilities, and lovely fleece. We will be keeping him as one to watch.

Sire: [DRIFANDI AI SIRE](#)

Dam: [GOSSIE KTB-302Y](#)
