

## LEIF

Leif is a gorgeous moorit grey ram who carries spotting. He threw great lambs as a ram-lamb last year and we're looking forward to seeing his lambs this year. He is well built with very good fleece and horns. He is out of milky lines on both sides. Leif is a Dancing Lamb Farm Dairy sire and should father very milky daughters. Leif carries Aboti, Flotti and Kani AI genetics, 25% AI.

Sire: Munkur DL-894Y

Dam: Bea DL-42P
