

Gabriel ♂ **DL-889Y** ♂ **AI Grabotni son**

VAI lamb born at Dancing Lamb Dairy and what a great guy he is. ♂ He sired quite a few really wonderful lambs and we're looking forward to his lambs this spring. ♂ His dam, Greta, was the best foundation ewe at Dancing Lamb Dairy. She out produced all the Icelandic ewes in the parlor and produced many sets of twins and triplets. ♂ She's a beautiful badgerface, an F1 Kani daughter, with fleece that's still lovely at 9 years old. ♂ Gabriel carries 75% AI genetics from Grabotni and Kani. ♂ He should produce well muscled daughters with excellent milk genetics.
