## Gabriel | DL-889Y | Al Grabotni son

VAI lamb born at Dancing Lamb Dairy and what a great guy he is.  $\square$  He sired quite a few really wonderful lambs and we're looking forward to his lambs this spring.  $\square$  His dam, Greta, was the best foundation ewe at Dancing Lamb Dairy. She out produced all the Icelandic ewes in the parlor and produced many sets of twins and triplets.  $\square$  She's a beautiful badgerface, an F1 Kani daughter, with fleece that's still lovely at 9 years old.  $\square$  Gabriel carries 75% AI genetics from Grabotni and Kani.  $\square$  He should produce well muscled daughters with excellent milk genetics.
