

Big, robust twin ram lamb. 11.25 pounds at birth. AI son of Jonas and grandson of AI sire Throttur. The dam is my favorite for body type. Nice body length and depth on this guy. AI genetics are 96% from sires: Jonas, Throttur, Raftur, Kveikur, Grani, Gaddur, Laekur, Flotti, and Lodi. This ram lamb is super well muscled, stock, and great overall conformation.
