

CERTIFIED ORGANIC. This two year old ewe has grown out superbly. She has excellent muscling, and has the golden, gorgeous, super shiny fleece of her dam. She doesn't produce the longest fleece, but it is incredibly soft with a great quantity of downy thel and the tog is really super soft, too. Could carry badger, moorit, spots. This ewe will produce colored offspring, as the dam is a black badger. AI lines include 1/4 Grani, 1/8 Munkur, 1/16 Spenn, 1/8 Bambi, 1/16 Flotti for a total of 63% AI. I really like the look of this girl. She has a gorgeous ewe lamb this year. Will sell either the ewe or her daughter.

Sire: MVI-904W Wallis

Dam: KTB-117W Wrena

D.O.B.: May 18, 2010

\$ 725. SOLD Knoll Farm, VT
