

Black grey mouflon ewe lamb. Twin. This pretty girl has 84% AI genetics from: Gandur, Laekur, and Noi from the dam and Grabotni, Lodi, Blettur, Kari, Rektor, Serkur from the sire. From my best ewe line....milky, great conformation, temperament, excellent mothering. Super stocky build and should carry forward excellent milking genetics. Raised a big lamb as a one winter ewe.

Sire: KTB-504A Brando AI Grabotni son

Dam: [KTB-616B Daisy AI Gandur daughter](#)

Date of Birth: April 28, 2016

View Pedigree: [Dazey](#)

Lambing record: 1 (OWE), 1

Fall 2017 Breeding: Dazey is bred to Grabotson, AI son of Grabotni. This is a line breeding to preserve the Grabotni line. Lambs will carry 80% AI genetics. Color of lambs will be moorit or black and patterns could be grey, solid, mouflon and spotting is possible.
