

## TREVA

## TREVA

Gorgeous solid moorit yearling ewe. Beautiful, heavy fleece and a very nice build on her. She comes from top dairy lines at Dancing Lamb Farm. AI genetics are 38% from Aboti, Kani, Flotti. She had a lovely ewe lamb this spring as a one winter ewe. Fabulous udder on this young girl and an outstanding mother. She is going to grow into a really good sized ewe. Truly fantastic fleece!
