

## LARGE SSA

## LARGE SSA

A beautiful black grey twin ewe. She carries moorit under her black grey. Love the super stocky build on this girl. AI genetics are 70% from Throttur, Lodi, Mango, Grani, Kjalvar, and Blettur, plus Grimur, Bambi, Hunn, Morro, Moli, Heli, Hynkill, Eldar, Laekur, Flotti, and Kjalvar. Very square, great conformation with straight legs and terrific chest, and lovely wool.
