

KITTY

KITTY

Another super well-built AI Guffi daughter. Heterozygous, white, twin. Great depth of body, very nicely muscled rear with deep leg muscle, and straight topline. Nice temperament, too. So far, she looks to have everything we breed for: excellent muscling, conformation, and fleece. Her AI genetics: 81% with Guffi, Ljufur, Lodi, and Laekur. She carries spotting. Kitty is a very attentive mother.
