

Lovely little ewe lamb, twin, out of a first winter ewe. She is a black grey badgerface, my favorite pattern. Could carry moorit. She is out of our AI Grabotni-son from last year, Roscoe, who is shaping up really nicely. This ewe lamb is of 59% AI genetics including: Grabotni, Dropi, Udi, Bambi, Kari, Rektor, Flotti, Noi, and Kari. She comes from excellent milky lines and ewes that are superb mothers. Terrific muscling and fleece on both parents.

Sire: [Roscoe AI Grabotni- son](#)

Dam: [KTB 403Z EmmyLou](#)

DOB: April 10, 2013
