

Beautiful black grey mouflon ewe lamb with flashing, a twin. The mouflon comes from the sire, our Grabotni-son, Roscoe. Both the dam and the sire are well built with excellent fleece, so this ewe lamb has great potential. Martine, the dam, is a great mother, very protective with plentiful milk. Great AI lines including Grabotni, Bambi and Flotti from the sire and Goli, Rektor, Hylur, Sponn, and Moli from the dam for a total of 65% AI genetics.

Sire: [KTB 405Z Roscoe, AI Grabotni son](#)

Dam: [FFC- 736X Martine](#)

Date of Birth: April 28, 2012
