

Triplet, white ram lamb out of our black grey spotted ewe, Whoopi. The dam is one of my very best ewes, a stellar mom, excellent conformation, beautiful udder. The sire is tall, long, well muscled with abundant and even wool. This ram lamb will carry color, grey or solid for pattern, plus spotting. AI genetics are 58% with Alfur, Bambi, Udi, Grimur, Flotti, Morro, Muli and Heli.

Sire: [BLW 321W Boss Hog \(AI Alfur-son\)](#)

Dam: [Whoopi KTB -108W](#)

DOB: April 16, 2013
