

Martine

A really fine ewe in all regards. Well conformed with a great front end: nice straight legs and a wide chest. Her fleece is abundant and even with long tog, nice sheen. AI genetics include: 1/4 Goli and Rektor and 1/16 Hylur, 1/32 Sponn, and 1/64 Moli for a total of 61% AI. She is heterozygous white, carrying grey and white pattern.

Sire: FFC-658W AI Goli son

Dam: FFC-386P AI Rektor daughter
